

**SYSTEM AND METHOD FOR DETERMINING COMPUTER ACCESS
WITH ELECTRONIC PAYMENT MECHANISM**

Abstract of the Disclosure

- 5 A method of public access computing comprises providing a computer system for accessing computer software applications, and selectively permitting access to the computer system with an electronic payment mechanism. A selective access computer system comprises a computing workstation having at least one software application and a selective access mechanism connected to the
- 10 workstation. The selective access mechanism is configured for obtaining electronic payment authorization for a user's financial instrument and for permitting selective access to the computer workstation upon payment authorization for the user.
